

Community Links offers Housing Transition and Tenancy Sustaining Services

Appropriate housing is often hard to find and obtain. It is also often difficult for individuals to maintain their homes in their community. Housing Transition and Tenancy Sustaining Services are designed to assist individuals with tenancy in their own homes, whether rented, leased, or owned.

Benefits of Stable Housing

Housing that is stable, affordable, and meets the needs of those who are aging or have disabilities is critically important and can result in positive health outcomes, a higher quality of life, and savings.

Listening to people with disabilities and their families, providers, and support coordinators will help people to locate affordable and accessible housing, find housemates, and identify housing resources/supports and other government benefits that, when blended with natural supports, will promote an everyday life."

If you want to identify me, ask me not where I live, or what I like to eat, or how I comb my hair, but ask me what I am living for, in detail, ask me what I think is keeping me from living fully for the thing I want to live for.

~ Thomas Merton
